

Product Roadmap

Key indicators of success:

- Enable at least 500,000 teleconsultations in 2022-23 and at least 1 million consultations in 2023-24
- Support a nationwide deployment in the Kyrgyz Republic
- Improve system availability to 100% (zero down time)
- Reduce mobile app latency by 75%
- Reduce time and effort for maintenance and bug fixing by 30%
- Reduce bug density to 4 bugs/KLOC (kilo lines of code)
- Increase number of simultaneous consultations from 10,000 to 100,000
- Comply with key interoperability standards (FHIR, HL7, ABDM) and privacy standards (HIPAA)
- Reduced network vulnerability and improved opensource code security
- Reduce time to train and onboard users by 40%
- Increase our score by 5 points (from 9/30 to 14/30) on the Global Goods Maturity Model
